

Applicant: Jorgensen
Serial No: 09/970,547
Amendment After Final Rejection

Remarks

Applicant points out that new counsel has taken over prosecution of this case, and that the customer number and attorney docket number have changed. The new (and previous) information is set forth in the heading of this Response. A Revocation and New Power of Attorney for this case was filed with the USPTO on July 26, 2005. A Petition for Three Month Extension of Time is filed herewith, thus this Response is considered timely filed.

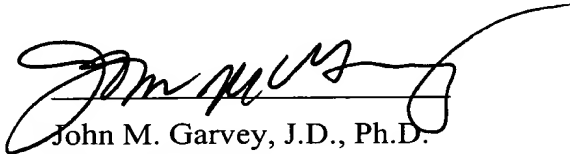

In the February 17, 2005 Office Action, the Examiner indicated that claims 3 and 16 contained allowable subject matter, and would be allowable if rewritten in independent form. Applicant has amended claim independent claim 1, to recite the limitation previously found in claim 3: that each processing chamber is arranged within a corresponding expressor chamber. Claim 16, dependant of claim 1, was amended to correct a grammatical error. Support for these amendments can be found throughout the specification, particularly in claim 3 as filed. As such, no new matter has been introduced by these amendments.

Solely to advance prosecution of this application, Applicant has cancelled claims 2, 3, 14, 35 and 36. Applicant preserves the right to pursue these claims, including claims of greater or differing scope, in related applications.

Applicant submits that the present application is in condition for allowance and such action is respectfully requested. Should any questions or issues arise concerning the application, the Examiner is encouraged to contact the undersigned at the telephone number provided below.

The Commissioner is hereby authorized to charge payment of any filing fees required in connection with the papers transmitted herewith, or credit any overpayment of same, to Deposit Account No. 50-3431, Reference No. 350930-0120.

Respectfully submitted,

John M. Garvey, J.D., Ph.D.
